(54) FAX DOCUMENT SORTER

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a FAX document sorter that can sort accurately and effectively received FAX documents with simple user operations of data input and confirmation of displayed data.

SOLUTION: The FAX document sorter sorts the FAX documents according to a keyword that corresponds with an identifier included in a part of each FAX document that is a sheet of bundled FAX documents received with a single transmission. The document sorter displays sequentially each sheet of the bundled FAX documents at an image display area 121 on a sequential image display 120, allows to enter the keyword for each FAX document being displayed while the keyword is shown on a character input area 122, and stores a correlation between each entered keyword and an image file name that specifies each FAX document.
